ATTENTION

Please note that on WED. 11/15/89 & THURS 11/16/89, cracked corn oil, Glycol/water-based (mole smoke), and Olybanyum pitch-based (bee smoke) special effects smoke material will be used extensively on the set today. The stage will be continuously maintained with smoke levels some people may find uncomfortable.

Respirator masks will be available. Please request in advance. Periodic opportunities for fresh air outside the stage will be provided throughout the shooting day. The stage will be cleared of smoke and ventillated when possible.

If you have special health conditions, or objections to the use of smoke on stage, please see an assistant director. Every effort will be made for your comfort and safety.
